C. Answer the following question briefly:

Q1. Why is Shirui lily a unique gift?

Ans: Shirui lily is a unique gift because it refuses to grow and flourish anywhere except in its native habitat – the Shirui hills.

Q2. What are the experiments carried out about the lily's growth habit?

Ans: Attempts to plant it elsewhere, even within Manipur, have been made but the flower refuses to grow and live for any length of time away from its original habitat.

Q3. What is the ideal eco-system for the Shirui lily?

Ans: The temperate forest at the attitude of about 8,500 feet of the Shirui hills, provides the ideal ecosystem for the lily which grows from the first week of May to the mid of June.

Q4. 'Because there is the Shirui lily?'

What is the idea expressed here by one member of an Expedition Team?

Ans: The idea expressed here is that they decided to face all the hardship and rigour of climbing the Shirui hills because he/she was enchanted by the beauty and uniqueness of Shirui lily that has caught the imagination of the people.

Q5. How has ignorance, curiosity and mindlessness affect the Shirui lily?

Ans: Out of ignorance, curiosity and mindlessness, the visitors plucked the lilies and uprooted its plants which resulted in the reduction of the number of lily.
